

COMPANY PROFILE

ABOUT OURSELVE

An organization focusing on IT infrastructure, system integration, Video conferencing, surveillance and security, Network security, power conditioning and customized software solutions. Established in 2004 with a vision and passion for turnkey solution in voice and data system, served many government and corporates with our products and services. During the time successfully secured ourselves in this business which is primarily based on commitment to excellence.

Our strong industry trained technical team, project handling capabilities and motivation for customer satisfaction and excellence keep us on top of the system.

Takyon's approach is to create, modify, enhance, and protect the business environment of its clients through the managed technical services. The carefully balanced combination of knowledge of technology and its practical implementation enhance Takyon's capabilities to effectively manage the need of its clients. Adherence to stringent ethical standards, as well as the use of creative communications tools makes TAKYON capable of optimally satisfying the communications needs of its clients.

Our Vision

“Seamless integration of systems with existing systems, for efficient distribution and functionality of information”.

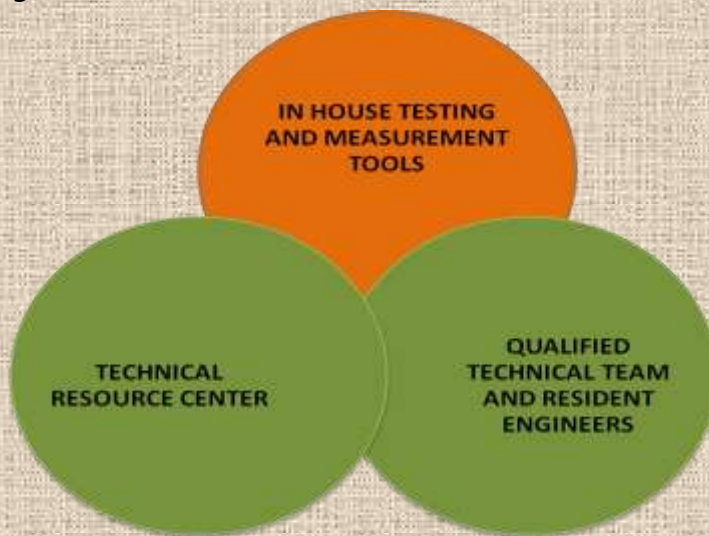

The difficulties of integrating systems include different hardware and software platforms, different databases, different implementation languages, different design philosophies, and different communication infrastructure.

“IT IS HERE THAT TAKYON DIVERSE TECHNOLOGICAL EXPERIENCE COMES INTO PLAY.”

Takyon has worked with legacy systems all the way to third generation technologies and this understanding makes it very easy to execute system integration.

Our Strength

To fulfill our commitment for excellence in technology we have strong qualified technical team and resources. Motivation for learning new updates in industry make our team always ready for the new challenges.

- ***Strong qualified technical team of more than 20 Network engineers.***
- ***In house various testing and measurement tools.***
- ***In house team for customized API required in integration.***
- ***In house technical resource center for fault rectification.***
- ***Alliance with global leaders of the industry.***

OUR SOLUTIONS AND SERVICES

A) **DATA NETWORK:** We have complete end to end solution comprising of world class quality certified products and services. Having strong technical team and in house resources like Penta scanners, RF optimization software's we can conceptualize, create and implement the state of the art network.

SOLUTIONS	<ul style="list-style-type: none"> • LAN, WAN, Wireless Network
SERVICES	<ul style="list-style-type: none"> • DESIGN AND CONSULTANCY • IMPLEMENTATION AND POST SALES SERVICE SUPPORT • ANNUAL MAINTENANCE CONTRACT
OEM ALLIANCES	<ul style="list-style-type: none"> • CISCO, HP, DLINK AMP • RAD LOOP, OPNET, TECHROUTE • RADWIN,CAMBIUM,UBIQUITI

B) **VOICE AND VIDEO NETWORK:** Understanding of communication and transparency of technology between data and voice network gives us a edge to provide the best in voice network. We have converged solution for voice, data, video digital transmission over same wired/wireless/optical fiber network.

SOLUTIONS	<ul style="list-style-type: none"> • IP PBX, WLL EXCHANGE, VOICE LOGGER, CALL CENTER • VIDEO CONFERENCING, VOIP • PUBLIC ADDRESS SYSTEM
SERVICES	<ul style="list-style-type: none"> • DESIGN AND CONSULTANCY • IMPLEMENTATION AND POST SALES SERVICE SUPPORT • CUSTOMIZED VOICE LOGGER SOFTWARE AND API. • ANNUAL MAINTENANCE CONTRACT
OEM ALLIANCES	<ul style="list-style-type: none"> • ERICSSON, NEC, DIALOGIC • POLYCOM, LIFESIZE • KRAMER, BOSCH, AHUJA

C) SERVERS AND STORAGE: Data storage and processing of same has become very important factor for any organization. Various technologies like DAS, NAS, and SAN evolved recently to address the need of data storage and processing.

SOLUTIONS	<ul style="list-style-type: none"> • DAS, NAS, SAN • VIRTUALIZATION, CLUSTERING
SERVICES	<ul style="list-style-type: none"> • DESIGN AND CONSULTANCY • IMPLEMENTATION AND POST SALES SERVICE SUPPORT • ANNUAL MAINTENANCE CONTRACT
OEM ALLIANCES	<ul style="list-style-type: none"> • HP, EMC, VMWARE

D) NETWORK SECURITY: Exposure to public network is usefull but equally unsecure in terms of privacy and security. Antivirus then Firewall addressed these threats but as the complexity grew with time then Unified threat management system, two factor authentication systems came into place. Also OEM's have designed their security appliances in a way that addresses not only security but have provisions for Load balancing and other optimization features.

SOLUTIONS	<ul style="list-style-type: none"> • ANTIVIRUS, FIREWALL • TWO FACTOR AUTHENTICATION • UNIFIED THREAT MANAGEMENT
SERVICES	<ul style="list-style-type: none"> • DESIGN AND CONSULTANCY • IMPLEMENTATION AND POST SALES SERVICE SUPPORT • ANNUAL MAINTENANCE CONTRACT
OEM ALLIANCES	<ul style="list-style-type: none"> • FORTINET, RADWARE, CYBEROAM, RSA

E) **Surveillance system:**

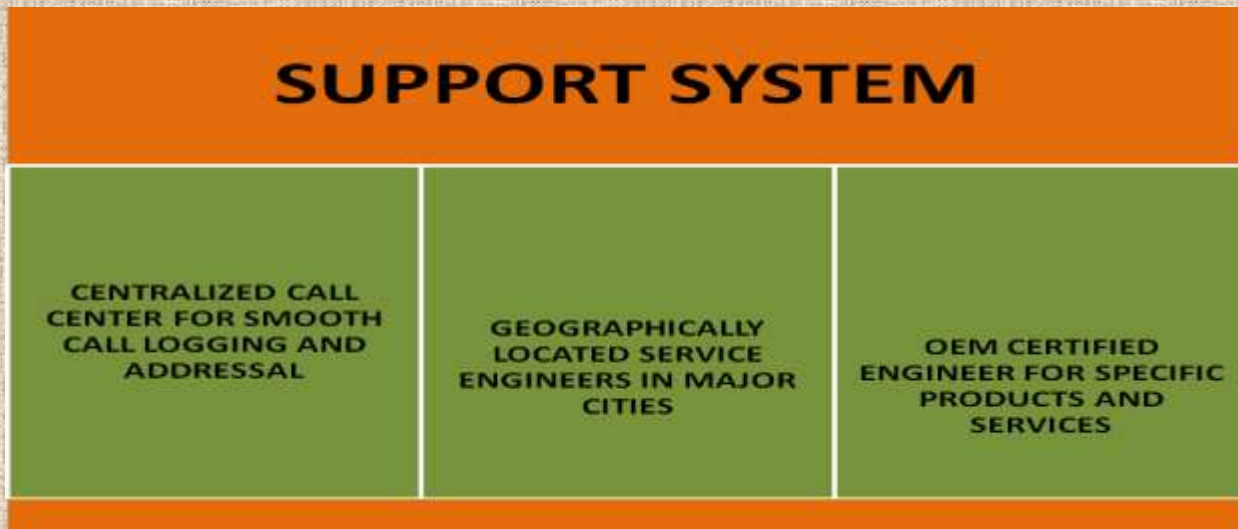

Now a days security and surveillance system has become so much of concern from individual to government agencies and for the same **we have separate division who is concentrating on this**. By the time we have also developed software for police department and running successfully at various DIAL 100 across the state.

As Analog based Surveillance technology changed to IP based and become part of Data, voice and video integration. Accordingly we too have solutions and services in this segment.

SOLUTIONS	<ul style="list-style-type: none">• ANALOG AND IP BASED CCTV SYSTEM• VIDEO ANALYTICS SOFTWARE• VEHICLE TRACKING SYSTEM• GPS AND GIS APPLICATION
SERVICES	<ul style="list-style-type: none">• DESIGN AND CONSULTANCY• IMPLEMENTATION AND POST SALES SERVICE SUPPORT• ANNUAL MAINTENANCE CONTRACT
OEM ALLIANCES	<ul style="list-style-type: none">• HONEYWELL, AXIS SAMSUNG, MILESTONE,

Our Support systems:

Strategic network implementation is essential for responding to changes in the environment like those taking place today, as well as speeding up support process. An efficient and ontime support to our valuable customer is our prime concern. To provide best after sales service and support we have resident engineers covering north india and for other regions we have tie-ups with our partners. Also we have our in house support call center system so that client can easily have first level support within hours.

OUR CALL BOARD NO: 0522-4106617

OUR SUPPORT MAIL ID: SUPPORT @TAKYON .CO.IN

Our customers:

Within the couple of years we have established ourselves by serving various clients and their satisfaction and repeated orders give us strength to do our best.
